# 25th Annual On Property **BULL & FEMALE SALE**

Friday 9th February 2024

Lot 19

**CONSISTENCY | PREDICTABILITY | POWER | PERFORMANCE**

## Welcome to Mount William Charolais and a milestone year in the seedstock industry for us. This year will mark our 25th Annual On Property Bull Sale!

I remember the first sale inspired by Mum and Bryce Galvin. It was held at the Homestead in some basic yards with around 15-20 bulls. Following on, a sale facility was built, and we did 20 sales in this facility. I've been in the ring every year and Bryce has been managing the flow of cattle at almost every sale. This year we will conduct our 25th sale in the new complex and showcase 45 Bulls and 20 females, which we are proud to call Mount William's finest line up, as we continue progressing our blood lines year on year.

Longer term, it may be more practical to utilise technology and transition to Video Sales, due to the difficulty in sourcing labour, combined with the added stress it puts on the animals.

I don't wish to comment too much on the cattle but rather strongly recommend you come and see them firsthand. Photos in catalogues and videos can be excellent representations of the subject, but they are not a substitute for putting your eyes on the animal. Bulls go through stages in development, and we like to think they will be a good representation of their potential by the field day on 2nd of February.

The recent volatility in the cattle market has highlighted the need to play the long game. Everything we do is focused on refining our herd and putting together a strong line up of powerful Charolais bulls each year for your selection. A young Frenchman Paul Preat told me, "Get the cattle right and the clients will come". A good mantra and I believe with our purebred Charolais we are getting close to what the ideal type is for our southern markets.

Our lead Palgrove sires 'Hannibal', 'Moderator' and 'Nitro' continue to breed exceptional progeny, leaving their stamp on our sale line up. Our Canadian AI sire 'Turnbulls Duty free' has produced some great performance cattle with good softness and structure. The Bulls sired by our Rosedale sires in particular 'Puma' are great types; moderate, soft with good structure and temperaments.

Our sale females offer access to quality Mount William Genetics. They are all joined to 'Talgoona Russel' sired by 'Rockwood Magic' who is well structured and a lower birth weight bull which we are using successfully on our heifers.

The future of our Genetic pool looks very bright with our new walking sire 'Palgrove Rain Dance', a 'Silverstream Oatley' son producing his first crop of calves last year, which were exceptional. 'Rain dance' was lot 5 in Palgrove's 2022 sale which we invested \$45,000. Mount William has continued to invest in the top end of the Charolais gene pool and we continue to see the results flow through our blood line and in turn on to our clients and their herds.

The cattle industry is constantly evolving, and we have thought hard about the future direction of the Stud to ensure we continue to provide market relevant solutions to our clients. In response, we have commenced a Charolais Composite Bull breeding programme at Mount William under the expert guidance and mentorship of Chris Davidson from Morgiana Beef.

The foundations have been laid and we currently have 50 Females in the programme, which includes a line of Black half Charolais half Angus females from the Rosedale Stud as well as a strong selection of Mount William full blood Charolais red factor females. All have been Joined to a Homozygous Black, Homozygous polled Composite bull 'ABC Appollo' that was purchased in September from the Hicks Family programme at Holbrook.

Our Commitment is to continue to produce the best pure Charolais genetics on offer and add an additional product in a Black, Polled Charolais Composite bull allowing our clients the opportunity of accessing Charolais performance and hybrid vigour that adds the benefit of a black coated calf.

I wish to thank all those people who have contributed to the preparation of these cattle and the work that goes into marketing and cataloguing our product.

We wish all our clients continued success with their operations and have full confidence in the ability for Mount William genetics to make a lasting impact on the success and viability of your Herd.

All the best for 2024.

Rob Abbott  
Principal  
Mt William Charolais.

# ON PROPERTY PRODUCTION SALE

COMMENCING AT 1.00PM, FRIDAY 9<sup>TH</sup> FEBRUARY 2024

The sale will also be interfaced with AuctionsPlus.  
Go to <http://auctionsplus.com.au/>

- **45 Charolais Bulls**
- **20 PTIC Heifers**

Mount William is J-Bas 8.  
Bulls are semen tested by Nationwide AB.

*Preview Sale Cattle  
at our Beef Week Field Day  
on Friday the 2nd of February  
OR  
Inspect at any time by  
appointment.*

## ACCOMMODATION

### SHEARERS QUARTERS / HOMESTEAD

**On Property accommodation:**

There are 8 refurbished rooms available to rent thru Air BnB plus high end accommodation in the homestead. Please visit Air BnB for details or contact William Abbott on 0448 886 258 or email [willabb@gmail.com](mailto:willabb@gmail.com)

### RED GUM COTTAGE

**On Property accommodation:**

Stunning country style modern 2 bedroom cottage fully furnished available to rent. Contiental breakfast provided. Please visit Airbnb for details or contact Victoria Abbott on 0499 039 090 or email [firetrap22@hotmail.com](mailto:firetrap22@hotmail.com)

*ALTERNATIVELY, Ararat is approx 30 minutes away and Halls Gap in the Grampians is approximately 40 minutes away. Both have a wide variety of accommodation. Well worth a visit.*

- All animals will be offered at auction. If not sold, they will be retained by the stud.
- Inspection any time before the sale can be arranged with Rob Abbott.
- Telephone bidding available by contacting Agents Ross Milne or Shelby Howard, prior to sale.
- Registration transfer fees are the responsibility of the vendor.

**AUCTIONSPLUS:** The sale will be interfaced with AuctionsPlus. Before you can bid in an auction, you **MUST** be registered. Registration and connection to an auction over the internet is completely **FREE!** Please ensure you register at least 2 business days prior to the sale. Visit the AuctionsPlus website for more information – <http://auctionsplus.com.au/>

**FERTILITY GUARANTEE:** Bulls are sold as fertile and capable of natural service. All bulls are semen tested and reproductively structurally assessed by AB Nationwide. Any claim on a bull must be made within 12 months after sale date and be accompanied by a Veterinary Certificate. The Veterinary report must state that, the bull has not suffered any injury or maltreatment which could have affected his breeding ability since delivery to the purchaser. Bulls which do not breed will be replaced by an animal of equal value or a credit less salvage value at the next sale. This clause will be strictly adhered to. Strictly no cash refunds. We are only too happy to assist you with your selection.

All females are sold as guaranteed breeders. Where a Purchaser submits a Veterinary Certificate to the Vendor within 12 months of the date of sale, that a female of joinable age is infertile and in his/her opinion has not suffered any injury or maltreatment which could have affected her breeding ability, the Female will be replaced by an animal of equal value or a credit less salvage value at the next sale. This will not apply where an attempt has been made to transfer embryos from the female. All Heifers will be pregested via a scan prior to sale day. Certificates available. PTIC does not guarantee a live calf. A small percentage of heifers will absorb a pregnancy and Mount William Charolais are not liable in the event this occurs. An arbitrator appointed by the Auctioneers will settle any dispute.

**HEALTH:** The Mount William Herd is J-Bas 8. All Animals have been drenched and vaccinated with 7 in 1, Pestiguard and Vibrio in accordance with the Pfizer STAR BREEDER program. The Mount William Herd has been tested negative for Pesti Virus. If you are concerned about the presence of Pesti Virus in your herd we suggest you consult a vet regarding a vaccination programme. All animals derive from an accredited Free T.B. and Brucellosis Herd. Any test required by interstate purchasers will be done at Mount William, at costs to the Vendor.

**DELIVERY:** Transport will be the responsibility of the Purchaser. Mount William will work in conjunction with McEwan's Livestock Transport to reduce transport costs to purchasers. Please speak to us or our Agents about your transport requirements.

**INSURANCE:** Insurance is available. We encourage you to consider insuring your purchase. Please speak with either Elders or Charles Stewart Howard.

**REBATE:** The Vendors agree to a rebate of 3% to outside agents who physically attend the sale and settle within 7 days. We are removing the 1% rebate to outside agents not in attendance at the sale. Agents must register their attendance at the sale with Deb Roche of Elders.

*PLEASE NOTE: This catalogue has been compiled with all due care and attention, however we or our agents cannot be held liable for the accuracy, use or interpretation of the information in this catalogue. People entering the property for the purpose of the sale do so at their own risk.*

**Mt William Charolais  
Annual Bull & Female Sale**

**Always on the second  
Friday in February.**

## Estimated Breeding Values (EBVs)

**Calving Ease EBVs (%)** are based on calving difficulty scores, birth weights and gestation length information. More positive EBVs are favourable and indicate easier calving.

- **CE % Direct = Direct Calving Ease** - The EBV for direct calving ease indicates the influence of the sire on calving ease in purebred females calving at two years of age.

- **CE % Daughters = Daughters' Calving Ease** - The EBV for daughters' calving ease indicates how easily that sire's daughters will calve at two years of age.

**Gestation Length EBV (days)** is an estimate of the time from conception to the birth of the calf and is based on Artificial Insemination and hand mating records. Lower (negative) Gestation Length EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

**Birth Weight EBV (kg)** is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

**200-Day Growth EBV (kg)** is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

**400-Day Weight EBV (kg)** is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

**600-Day Weight EBV (kg)** is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

**Mature Cow Weight EBV (kg)** is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.

**Milk EBV (kg)** is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weights of her calves. For dams, it indicates her milking ability.

**Scrotal Size EBV (cm)** is calculated from the circumference of the scrotum taken between 300 and 700 days of age and adjusted to 400 days of age. This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

**Carcass Weight EBV (kg)** is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

**Eye Muscle Area EBV (sq cm)** is calculated from measurements from live animal ultrasound scans and from abattoir carcass data, adjusted to a standard 300 kg carcass. This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher Eye Muscle Area EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcass weight than will sires with lower Eye Muscle Area EBVs.

**Rib Fat and Rump Fat EBVs (mm)** are calculated from measurements of subcutaneous fat depth at the 12/13 rib site and the P8 rump site (from live animal ultrasound scans and from abattoir carcasses) and are adjusted to a standard 300 kg carcass. These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.

**Retail Beef Yield EBV (%)** indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcass. Sires with larger EBVs are expected to produce progeny with higher yielding carcasses.

**Intramuscular Fat EBV (%)** is an estimate of the genetic difference in the percentage of intramuscular fat (marbling) at the 12/13th rib site in a 300 kg carcass. Depending on market targets, larger more positive values are generally more favourable.

## Selection Indices

**Northern Maternal Index [NMI]**- Estimates the genetic differences between animals in net profitability per cow joined for a typical commercial self-replacing herd where Charolais bulls are joined with Bos indicus cows in Northern Australia targeting the grass fed Jap Ox market. Selected heifers are retained for breeding and so maternal traits are of importance. Steers target 650 kg live weight (360 kg HSCW and 12 mm P8 fat depth) and heifers 630 kg (340 kg HSCW and 14 mm P8 fat depth), at 26 months of age. In response to industry feedback; positive emphasis has been placed on finishing ability.

**Domestic Terminal Index [DTI]**- Estimates the genetic differences between animals in net profitability per cow joined for a typical commercial herd where Charolais bulls are joined with a British breed cow base (e.g. Angus) targeting the domestic trade. This index assumes all progeny will be marketed with steers finished in the feedlot for 90 days, and weighing 450 kg (250 kg HSCW and 7 mm P8 fat depth) when marketed at 12 months. Heifers will be in the feedlot for 75 days, and weigh 430 kg (230 kg HSCW and 9 mm P8 fat depth) at 12 months. In response to industry feedback, positive emphasis has been placed on finishing ability.

## Accuracy

**Accuracy (%)** is based on the amount of performance information available on the animal and its close relatives - particularly the number of progeny analysed. Accuracy is also based on the heritability of the trait and the genetic correlations with other recorded traits. Hence accuracy indicates the "confidence level" of the EBV. The higher the accuracy value the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Even though an EBV with a low accuracy may change in the future, it is still the best estimate of an animal's genetic merit for that trait. As more information becomes available, an EBV is just as likely to increase in value, as it is to decrease.

Accuracy values range from 0-99%. The following guide is given for interpreting accuracy:

- **less than 50%: Low accuracy.** EBVs are preliminary and could change substantially as more performance information becomes available.

- **50-74%: Medium accuracy.** Usually based on the animal's own records and pedigree.

- **75-90%: Medium-high accuracy.** Some progeny information included. EBVs may change with addition of more progeny data.

- **more than 90%: High accuracy** estimate of the animal's true breeding value.

As a rule, animals should be compared on EBVs regardless of accuracy. However, where two animals have similar EBVs the one with higher accuracy could be the safer choice, assuming other factors are equal.

For further information please contact the Charolais Society or Charolais BREEDPLAN.

# Mount William REFERENCE SIRES

## TURNBULLS DUTY-FREE 358D (P)

**TATTOO: OAC M1309E**

**COMMENTS:** Mt William was part of a syndicate of 5 Australian Studs who bought into the first batch of Duty Free semen via Agri gene.

Duncan Newcomen and Harris Thompson saw him in the flesh in Canada. Duncan suggested Duty Free would go well over the powerful Mt William Cows.

The Homozygous Polled Canadian sire has brought softness and refinement to his progeny. We have used him for the past 3 AI seasons, and he is producing outstanding calves.

## PALGROVE MODERATOR (AI) (P)

**TATTOO: PK M544E**

**COMMENTS:** Moderator was purchased as Lot 9 in the 2018 Palgrove sale for \$23,000.

An extremely well balanced bull, structurally hard to fault. His phenotype and disposition are excellent. He has length, width and depth, coupled with an ideal maturity pattern and excellent foot and leg structure.

His Sire Jubilee was the high selling bull in Australia in 2015 (\$35,000) and an AI Sire at Palgrove.

He has joined our programme and moved quickly to be a lead sire, breeding extremely well and attracting interest along the way. Semen sold to Waterford Charolais resulted in Moderator embryos topping the 2019 Charolais National Sale at \$1,400.

We believe he will compliment the existing base of Hannibal females in the herd. He sired the top Price Bull in our 2022 sale, Mt William Rome \$23,500.

**COMMENTS:** Hannibal needs little introduction. He has an exceptional pedigree, a sensible mature size, oozes natural thickness has plenty of softness and a sleek coat. His growth and carcass EBV's are outstanding. We purchased him in 2014 as one of the sale features at Palgrove. Four years later 20 of his sons averaged \$10,850 in Mt Williams 2018 sale and six sons averaged \$19000 and topped at \$40,000 in 2017 at Palgrove. His semen has been exported to Hemingford Charolais in New Zealand. We continue to selectively use Hannibal in our AI program with outstanding results.

**COMMENTS:** Rosedale Puma was purchased in May 2020 for \$11,000. He is an impressive thick, deep soft bull, with a lovely polled outlook combined with an amazing set of EBV's. His sire Ascot Knightly was purchased by Rosedale for his carcass attributes growth and intramuscular Fat. Puma has been used more extensively in the herd and is the sire of some of the best bulls in this draft.

**COMMENTS:** Lizard was retained from our 2015 drop of calves. He formed part of the show team we took to Royal Melbourne for the Charolais feature Show placing second in the 18-20-month-old class. Lizards Sire Advanced Domino was Supreme Champion interbreed bull in 2010 at Brisbane Royal Show. Lizard has an excellent temperament, good structure and plenty of grunt. His calves are moderately framed, well-muscled and docile.

**COMMENTS:** Homozygous polled with phenomenal performance and dimension, illustrated thru his top ranking in the top 2% for weaning weight and yearling weight of the breed in Canada. He sold for \$83,000 to a syndicate which included SEMEX. Downtown was bred by the famous Wilgenbusch Charolais Stud in Halbrite Saskatchewan. We have bred some cracking calves by him at Mt William.

## 1

## MOUNT WILLIAM THUNDER (P)

**TATTOO:** BS 22T180E    **DOB:** 11/04/2022

**COMMENTS:** Two ticks to start of this run of bulls. Out of a very handy Rosedale E-Tag polled female, Thunder is a nice type of bull, has good stretch a good muscle pattern and is nice and square. Happy to be opening the draft with a Mount William sired Bull.

See a video of this bull online

## MOUNT WILLIAM TIJUANA (AI) (P)

**TATTOO:** BS 22T21E **DOB:** 10/03/2022

**COMMENTS:** Thick as a tree stump this Duty-Free Son has so much raw power in his pedigree. We have found the Duty-Free progeny to have excellent fat cover and this blokes mother, K25 Kebab, has no shortage of meat being a Blelack Digger (P) (UK) daughter. Good even raw data, and indications of good IMF.

## MOUNT WILLIAM TARZAN (P) (R/F)

**TATTOO:** BS 22T44E      **DOB:** 16/03/2022

**COMMENTS:** Tarzan is the full brother to Mount William Plumb who sold to Palgrove for \$18,000 in our 2020 sale. He is a serious performance bull, and a great example of the stamp Hannibal puts on progeny. We have another full brother who is white which we have earmarked as a future stud sire. Impressive raw data top IMF top Fats, solid EMA. He will do good things in your herd.

**REBATE REMINDER**

The Vendors agree to a rebate of 3% to outside agents who physically attend the sale and settle within 7 days. See more details on the "Conditions of Sale" page at the start of the catalogue.

9

## MOUNT WILLIAM TAKE ME (P)

**TATTOO:** BS 22T203E    **DOB:** 14/04/2022

**COMMENTS:** A seriously good genetic package and the first of the Moderator sons in the draft. His Dam is arguably one of the best cows in the herd having produced 9 progeny including some high end Bulls such as Mount William Middleburg and Ribeye. We can't get enough of the Moderator progeny. He just keeps them coming, consistent quality season after season. Top EMA in the Draft at Scanning.

## MOUNT WILLIAM T-BONE

**TATTOO:** BS 22T213E **DOB:** 16/04/2022

**COMMENTS:** A good carcass bull. Plenty of fat cover IMF and EMA in this fella. Goes back to Lanky on the dam side and Hannibal in his pedigree. We like this cross of Moderator and Hannibal bloodlines, it has proven to be a winning formula. Great length and shape and smoothness in this bull with that appealing sires outlook.

## MOUNT WILLIAM TORQUAY (P)

**TATTOO:** BS 22T135E    **DOB:** 02/04/2022

**COMMENTS:** A stylish and well put together Moderator son. Moderator ranks in the top 1% of the breed for 400, 600-day weights and scrotal size. This son is out of one of our high performing Dover cows. We have retained his homozygous polled half-brother Mount William Snow Cat to use in the stud herd. A bull with good weight for age and nice even raw data. A real prospect.

**14**

## MOUNT WILLIAM TOP DOG

**TATTOO:** BS 22T145E    **DOB:** 03/04/2022

**COMMENTS:** A Lanky son with that smoothness and structure he puts into them. A sleek coated bull with a smooth shoulder and a structure that indicates he might be useable on heifers. Big fat scans and second top IMF scan. We like the structure on this bull, a little lighter boned than some of his counterparts a good bull to infuse Hybrid Vigor and to moderate his progeny.

See a video of this bull online

## MOUNT WILLIAM TEX MEX (P)

**TATTOO:** BS 22T193E    **DOB:** 11/04/2022

**COMMENTS:** A super complete bull with a sleek coat, good feet and good depth of flank. Definitely a good one, and the first Puma son for sale in 2024. Plenty of weight for age in this sire and a good topline. Covers the ground well. Out of a red factor Hannibal Daughter, this combination of bloodlines is one to watch if this bloke is any indication.

**17**

## MOUNT WILLIAM TOBIANA (P)

**TATTOO:** BS 22T201E    **DOB:** 13/04/2022

**COMMENTS:** A big square Nitro son packed with muscle. He has a good frame and topline, a bull with a bit more scope in his dimensions. He is mobile and moves well over the ground. His raw scans show a good amount of fat cover and IMF and a very respectable EMA. We have found that Nitro will consistently pass on muscle content to his progeny.

## MOUNT WILLIAM TOP SHELF (AI)

**TATTOO:** BS 22T23E    **DOB:** 11/03/2022

**COMMENTS:** A white powerhouse Hannibal son. Meaty and well-muscled, thick and square. Stands on good blocks. A good round hindquarter and no shortage of power. His characteristics combined with Hybrid Vigor will certainly put shape and weight into his calves. Good EMA as we expect from Hannibal Progeny.

## MOUNT WILLIAM TRANSMITTER (P)

**TATTOO:** BS 22T115E    **DOB:** 31/03/2022

**COMMENTS:** A bull with a great topline, he is thick, super soft and smooth. Square set with a neat structure. One of only a few Nitro sons in the draft. He has a presence about him. Nitro has proven to be a bull with longevity in our herd and we have retained two sons for stud duty. His dam is a tidy Rangan Roundup female - some quality genetics in this package.

## MOUNT WILLIAM TROOPER (P)

**TATTOO:** BS 22T102E    **DOB:** 29/03/2022

**COMMENTS:** Trooper is out of a stalwart Female in the Mt William herd in H154 Hurricane. She has had 10 calves in 8 years including two sets of twins. Two well-known progeny are 'Ruby' now owned by Kevin and Dawn Parker and 'Palestine' (by Geddes) we used as a stud sire. This bull has developed further and has the frame to support kilos of beef. A softer soggy type with plenty of volume. A big teddy bear.

## MOUNT WILLIAM TRUE GRIT (P)

**TATTOO:** BS 22T176E    **DOB:** 06/04/2022

**COMMENTS:** Another neat Bull, this time a Nitro son. Nitro is reliable at passing on that power to his progeny and he doesn't disappoint here. Nice deep flank and powerful hindquarter. An ideal Charolais bull for putting weight and Hybrid Vigor into his calves. He will not disappoint.

## MOUNT WILLIAM TAIPAN (AI) (P) (R/F)

**TATTOO:** BS 22T42E      **DOB:** 15/03/2022

**COMMENTS:** A rare red factor JWX Downtown son. Moderate in size but thick in stature and a good type of bull. We always liked the Downtown progeny however his semen became scarce in Australia. This bull is a combination of Downtown and Palgrove Hannibal Genetics. His Dam P145 Pandora has one of the best Phenotypes in the Mt William Herd. The Dam of Super Line (P) who sold to Terry and Marilyn Dove last year.

Joined from 01/11/23 to 10/01/24  
giving an August / September Spring calving date.

**COMMENTS:** Mt William purchased Russel at Talgoona's Inaugural bull sale in March 2022. He is an extremely long smooth shouldered, well-muscled bull, with exceptional top line. He was a good option for heifer joining and has an excellent temperament, something that is highly valued in our programme. Russel has good weight for age.

Genetically he goes back to a some great Mt William bloodlines but also brings outcross genetics via the Sorraghan family Rockwood Blood.

**A safe bull to deliver some quality progeny.**

## MOUNT WILLIAM TWISTER (P)

**TATTOO: BS 22T219E****DOB: 18/04/2022**

PALGROVE JUSTICE (PK J603E) (P)

**SIRE: PALGROVE NITRO (PK N142E) (P)**

PALGROVE RECKON 87 (PK G182E) (P)

SILVERSTREAM GEDDES G102 (OAN G102D) (P)

**DAM: MOUNT WILLIAM PUPPY (BS P43E)**

MOUNT WILLIAM EFFIE E27 (BS E27E)

**COMMENTS:** Good power in this soft skinned female. A Nitro daughter with plenty of flesh. Her dam P43 a Silverstream Geddes Female. A lot of scope in this pedigree. Three ticks.

**EBVs for this Heifer will be available at the end of January 2024.**

You can view the EBVs via the Charolais Society website ([www.charolais.com.au](http://www.charolais.com.au)). Select "Animal Search" in the top right hand corner and enter the tattoo, with no spaces, in the section called "Animal Identifier(s)". The EBVs will also be available as a supplementary sheet available directly from Mount William Charolais by emailing [rob@mtwilliamcharolais.com.au](mailto:rob@mtwilliamcharolais.com.au). This sheet will also be available at our Beef Week Open Day on the 2nd of February, and at our sale.

*Purchaser / \$:*

# Red Gum Cottage

A cosy, country cottage on a stunning Estate in the heart of the Grampians

WILLURA VIC

4 Guests | 2 Bedrooms | 2 Beds | 1 Bath

You'll have the whole cottage to yourself!

This lovely, cosy old Overseers cottage has been completely refurbished, keeping as much of the charm and 'country' feel as possible whilst having the modern touches where necessary. Red Gum Cottage is located at Mount William Station, an old family farm specialising in breeding Charolais Cattle.

Only 25 minutes drive to Dunkeld, 15 minutes to Grampians National Park and 35 minutes to some of the best wineries in Victoria. Set amidst stunning, Australian countryside of scattered red gums and wildlife.

**FOR CATTLE ENTHUSIASTS:**

A personal tour of the Mount William Charolais Stud is available on request for guests of Red Gum Cottage.

*We look forward to welcoming you to Red Gum Cottage*

Available to rent through Airbnb: [www.airbnb.com.au/rooms/39035644](http://www.airbnb.com.au/rooms/39035644)
