WELCOME

Don't know about you, but what a bloody year it's been so far!

On that note, welcome to our 2026 Annual Sale. Thank you for your interest in this year's offering.

Few could have predicted the start to 2026. Between floods, drought, and enough uncertainty to keep everyone awake at night, it's been a year of challenges. The grass disappeared quicker than the bank balance, and for a while the rain forgot our postcode. Thankfully, it finally remembered. But tough seasons have a way of proving what really matters, and they've only strengthened our belief in the cattle and the breeding program we've spent years building.

Wherever you are in Australia, this season has been a reminder that no two producers are living the same story. Some have enjoyed the best conditions in years, while others are still waiting for the season to turn. Here in our little patch, it's certainly been the latter. Thankfully, some recent season saving rain has given us a much-needed lift and, more importantly, the opportunity to finally get some seed in the ground. It's amazing how quickly optimism returns when the paddocks finally start looking greener.

The bulls and females in this catalogue are proof of their doability. Good stock is good stock, and you can't always measure quality with a spreadsheet. They've got the look, the structure, the temperament, and the genetics to back it all up. We're incredibly proud of the bulls and females on offer. **We'd rather sell good, honest cattle with substance than pretty figures with no punch.**

After years of quietly breeding practical cattle that perform in the real world, the secret somehow still seems to be safe. Perhaps we're the Speckle Park industry's best-kept secret or perhaps everyone else is just a bit slow to catch on. Either way, we're sticking to what we do and we're not changing a thing.

We're proud of every bull and female in this catalogue because they've been bred to do a job, not just look good in a photo. Thank you for your support, your friendship, and the confidence you've placed in our program over the years.

Whether you're a long-time client or joining us for the first time, we look forward to welcoming you to the Oakey Creek Speckle Parks 6th Annual Sale.

"Easy seasons grow grass. Tough seasons prove genetics."

Hooroo
Dennis & Lou

SALE INFORMATION

INSURANCE

Cattle become the responsibility of the purchaser at the fall of the hammer.

Like any other valuable purchase, we strongly suggest insuring your purchase, especially for the first six months. We recommend Elders Stud Stock Insurance. Please talk to one of the Elders team who can assist you.

SUPPLEMENTARY SHEET

Updated weights, scan data and any other new or relevant information will be posted online and available on Sale Day.

BREEDPLAN & EBV's

A 2024 EBV Percentile Table has been included in the catalogue for your reference.

EBV's can be a tool for purchasers to assist them in making selections, however we strongly suggest more emphasis should be placed on raw data and visual appraisal.

Our belief is Speckle Parks EBV's currently have a very low accuracy due to limited breed numbers, however, we do collect & submit data to Breedplan but this data is primarily used for in-herd use.

We trust in our knowledge of our cattle and the ability and performance of their individual pedigrees and we are happy to discuss any part of that to assist in your decision making.

VISITOR SAFETY

While every care has been taken to ensure the safety of all persons and property, the Vendors and Agents are not liable for any damage or injury caused.

All our cattle have been screened for temperament and are quiet to handle under normal circumstances.

Understandably Sale Day is a very different experience for our cattle. We ask that you be aware that one may misbehave due to the change in their surrounds and the pressure of so many strangers invading their space.

VISITORS ENTER THE CATTLE PENS AT THEIR OWN RISK. CHILDREN/PRAMS ARE NOT PERMITTED TO ENTER THE YARDS.

We cannot cover every example of the dangers of cattle handling, we just request you use a little common sense and **have your wits about you** at all times.

FREIGHT

All livestock must be transported from Oakey Creek within 7 days of Sale Day. Elders will act as transport co-ordinators. Please see one of the Elders team to arrange transport before leaving the Sale. C and K Dolinski Cattle Transport and Dick Smith Transport will be in attendance on Sale day.

*** A freight subsidy is available on multiple purchases. Give us a call to discuss further***

HERD HEALTH

The Sale animals have been treated with the following and we strongly recommend annual boosters.

BULLS

- 05/11/25 3 day (BEF) Vaccine
- 04/12/25 Tick Fever Vaccine
- 08/05/26 Pestiguard booster & Neovedor Pour-On
- 06/06/26 Multimin Evolution
- 12/06/26 Ultravac 7in1
- 17/07/26 Vibrovax booster

HEIFERS

SALE INFORMATION

OUR GUARANTEE TO YOU

BULLS

Oakey Creek Speckle Parks guarantees the fertility of the bulls at the time of the sale. The entry of every bull constitutes a guarantee by the Vendor that if a bull should prove infertile within 6 months of purchase, for reasons other than injury, misadventure, disease, mismanagement or negligence, the Vendor will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price (excluding any costs and expenses of the purchased price in taking delivery) minus salvage. This credit may be used to purchase an animal at a future Oakey Creek Speckle Parks Sale.

Any request for replacement/credit must be lodged with the Vendor within 6 months of the Sale date and be accompanied with a vet certificate and a signed Statutory Declaration by the Purchaser to the effect that the substance of the vet report is true and correct.

FEMALES

All females are sold as guaranteed breeders & have been checked by a qualified Veterinarian and certificates are available.

If a female should prove infertile in the period of 6 months after the sale date, for reasons other than injury, misadventure, disease, mismanagement or negligence, the Vendor will provide you with a satisfactory replacement if available or issue you with a credit equal to the purchase price (excluding any costs and expenses of the purchased price in taking delivery) minus salvage. This credit may be used to purchase an animal at a future Oakey Creek Speckle Parks sale.

Any request for replacement/credit must be lodged with the Vendor within 6 months of the Sale date and be accompanied with a Vet certificate and a signed Statutory Declaration by the purchaser to the effect that the substance of the vet report is true & correct.

DISCLAIMER

All reasonable care has been taken to ensure that the information provided in this catalogue is correct. However the Vendor or the selling agent do not assume any responsibility for the correctness, use or interpretation of the information included in this catalogue.

"Since using MegaMin extra Magnesium, we've noticed reduced scouring and increased weight gain for our stock grazing green feed."

- Dennis & Lou Saint, Oakey Creek Speckle Park

Why choose MegaMin Magnesium Supplements?

- ✓ Formulated to **improve production, feed conversion efficiency and weight gain** for livestock grazing lush green pastures, ryegrass, oats and winter cereals.
- ✓ Contains **high quality calcium and magnesium sources** along with a balance of macro and trace minerals to **help minimise risks associated with magnesium deficiency**, such as **grass tetany and milk fever**.
- ✓ Supplies higher levels of magnesium to **aid stock scouring on green feed and assist meat quality during high-stress periods**.
- ✓ MegaMin BovaMag contains Bovatec® to **promote beneficial bacteria for better feed-conversion efficiency** and help **control internal protozoa parasites** that cause coccidiosis in cattle and sheep.

Allflex® Tissue Sampling Units provide a simple but effective means for DNA testing livestock. Collect a clean, uncontaminated sample in seconds with a single squeeze motion. TSUs are easy to use and yield excellent lab results.

TSUs can be paired with a matching NUS and visual management tag, creating a simple link between the genetics of an animal and its identification.

A FEW WISE WORDS BEFORE WE GO

When buying any livestock for your herd, problems can be reduced by getting them home safely and settling them in properly.

One thing paramount with Speckle Parks is that they are a communal animal. For most of our cattle they have never been separated from their mates. It is best to allow new livestock entering your herd time to adjust to their new environment. We suggest especially with bulls, to have appropriate cattle in the yards to welcome them to their new home. We also suggest with bulls, leaving them in the yards for a decent 5 days. Let them get use to their new surrounds, knowing their mates aren't coming and give them a chance to get use to your voice and your handling procedures. This investment in time and patience will pay off in the long run.

THANK YOU, THANK YOU, THANK YOU

A few people to acknowledge and say thank you to. First & Foremost, our family & friends who have been there constantly supporting us. Our long term clients who stick by us & trust in our program. We greatly appreciate old & new clients and friends we have made in the industry.

Secondly, and in no particular order;

And a big thank you to our very generous sponsors. We greatly appreciate your support.

To everyone who bid, whether you took home a bull, female, or simply supported the sale, thank you for being part of our 6th Annual Bull & Female Sale. We truly appreciate your attendance, your interest in our cattle, and the confidence you've shown in our program. To our successful purchasers, we wish you every success with your new additions and hope they become valuable contributors to your breeding program for many years to come.

May your journey home be a safe one. See you next year!!
